MINISTRY OF EDUCATION AND TRAINING
CAN THO UNIVERSITY

SUMMARY REPORT RESEARCH PROJECT

- Project code: THS2026-67
- Project title: Development of a Multi-Tenant Task Management Application
- Duration: 6 months, May–October 2026
- Budget: VND 15,000,000 (project budget estimate; funded by Can Tho University)
- Coordinator: Ngô Hưng Thịnh (0939172285)
- Members: Nguyễn Thanh Trọng, Trang Minh Chánh, Huỳnh Hồng Ân, Cao Tường Hưng
- Supervisor: TS. Ngô Bá Hùng (nbhung@ctu.edu.vn)
- Necessity: Shared Kanban services for university classes and research groups require tenant identification, isolated data access, and consistent task states.
- Objectives: To design, build, and assess a multi-tenant architecture for a university task management application.
- Methodology: Literature synthesis, architectural trade-off analysis, application development, and experimental evaluation.
- Project activities: Tenant identification, data isolation and authorization, task-state consistency, application design, deployment, and evaluation.
- Research results: . . . . . .
- Research new finding: . . . . . .
- Application potentials: . . . . . .
